-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 19 April 2010 has been entered. Claims 2, 4, 6, 8, 10, and 12 remain cancelled. Claims 5 and 7 remain withdrawn from consideration. The amendments made to the claims do not place the application in condition for allowance for the reasons set forth below.

Response to Arguments

Applicant's arguments with respect to claims 1, 3, 9, and 11 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3, 9, and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Kensey (U.S. Patent No. 5,061,274). Kensey discloses a locator device (see entire document) comprising an elongate member (38) having a distal opening in its distal region and a proximal opening in its proximal region which are connected by a

lumen (for example, see Figure 3), wherein the distal region has a substantially uniform diameter, and a bioabsorbable and expandable occlusion member (20; for example, see column 5, lines 44-45) attached to a specific position on the distal region of the elongate member such that it is in contact with the lumen of the elongate member (at the distal opening) and extends distally of the distal opening of the elongate member (for example, see Figure 3), wherein the occlusion member is capable of substantially blocking blood flow out of the blood vessel at a position outside the blood vessel, and wherein the elongate member is capable of being positioned in a blood vessel such that blood can enter the distal opening without passing through the occlusion member (they are separate components).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MELANIE TYSON whose e-mail address is melanie.tyson@uspto.gov and telephone number is (571) 272-9062. The examiner can normally be reached on Monday through Thursday 8-7 (max flex).
